

# The Gazette.

GRISWOLD, KOKKEN & SUTPHEN,  
Editors and Proprietors  
OFFICE ON Main street, Tallmadge  
Block, Third story.

## LANCASTER, OHIO

Thursday, June 2, 1870.

See advertisement of stray cow.

Berea has a new advertisement in this issue. Read it.

The making of clover hay has commenced.

The Local Regulators propose another enforcement in July.

Admiral & Co. are so crowded with work that they are calling for help. See local notice column.

The English papers state that John Cartwright has sold out at that place and is going west. Success attend him!

The New Lexington Herald has been sold by Duffy, Green & May to Geo. Henrichs. The New says the price paid was \$100.

The beginning of work on the Atlantic and Lake Erie Railroad will be celebrated at New Lexington by a big blow-out on the 22d inst.

Meiss, Smith, Allen & Hatchett, are now receiving their Small Stock of Dress Goods and dry goods generally. See their announcement in new number.

**Citizens' Meeting To-Night.**

The meeting at City-Hall to consider several reports on School Buildings and matters connected therewith, will be a very important one. All citizens should attend.

Our lady readers are treated to a readable article on the fashions, in the outside columns of this issue.

The editor is nearly crowded out of the *Gazette* columns this week by the unusual supply of local correspondence, &c. The paper doubtless gains in interest thereby.

**PORLING.**—Mr. John C. Flood, of this city, handed us on Monday, a twig from a tree in his yard, containing in a space of 6½ inches in length, over 70 perfectly formed cherries, said to be of the Black Tardarian variety.

**BASIL.**—We have seen the plan of the new dwelling to be erected in Basil by our friend A. T. Mason. The structure will be handsome and commodious, and a conspicuous ornament to the village.

**CUT WORMS.**—Great injury has been done to the newly-planted corn in this county, by this pest. In some cases, nearly whole fields have been taken. Many farmers have been obliged to resort to a large extent.

**The Eagle Cutting Box,** manufactured at the works of the Eagle Machine Company and at the works of the Hocking Valley Mfg. Co., at Lancaster, is pronounced by farmers far superior to the same article manufactured in Cincinnati.

**IRON FENCING.**

KRUMM's Patent Iron Fencing has gained a wide celebrity for beauty and durability. The advertisement of the proprietor, a resident of Columbus, appears in our column to-day.

**STRAWBERRY FESTIVAL.**—The Ladies of St. John's Episcopal Church in this City, held a very successful Festival at City Hall on Tuesday evening.

Strawberries, Cream and Cakes varied in large quantities and a general good time was enjoyed.

The censitakers yesterday commenced their active labors in the field.

Capt. Sutphen will be off duty of the *Gazette* for probably some three months. The inhabitants of East Lancaster will form the first entries on his schedules.

**DECORATION DAY.**—Monday last was very generally observed throughout the Northern States in the ceremonies of decorating the graves of soldiers with flowers. In many places large and imposing celebrations characterized the occasion.

Lancaster ignored the day, as usual.

**STATE FARM STRAWBERRIES.**—By the action of Acting Commissioner Howe, the *Gazette* office was on the 30th inst. re-located with a liberal lot of the famous strawberries grown on the State Farm. They are among the best of the season, and were very fine.

The proprietors of the sale of these berries is the Drug Store of G. V. Beck, where they may be obtained at a reasonable quantity at low rates, the ruling price we understand, being now 10cts per quart.

**The Circleville Doctor** says Dr. A. J. Sutphen, former of Oakland, Fairfield County, has removed to this city and offers his professional services to new citizens. The Doctor is a physician of twenty years active practice.

We may add to the above that Yarfield loses, and Pickaway gains an excellent citizen by this removal.

**Architectural Report.**

Mr. Tinsley, Architect, of Columbus, who was employed by the Board of Health to make examination of the North school building, has completed his work and made a report of his findings. As the building is utterly unsafe, we learn that he has examined the floor, and gave it a final opinion that that building must be demolished.

In an unsafe condition, we presume, and it is submitted in public notice in full in our next issue.

Township Trustees, by a late law, have authority to provide winding-up places on public highways at 10 miles apart.

A house belonging to Mr. Thomas Starling ran away on Columbus Street on Friday, easily smashing a new express wagon, but doing little other damage.

**High School Exhibitions.**  
The exhibitions appointed for Friday afternoon and evening next, will be well worth seeing. In addition to essays, declaimations and music, two dramatic pieces will be performed, which will be full of amusement and interesting points. The course will be finished by Schenck's orchestra. Proceeds of exhibition to go to purchase organ for the school. Malines and A. M. for children under. Tickets on sale at the book stores of Brundage and Hill.

**Beginning of the First Ohio.**

We learn from Gen. J. A. Stanford that the next Reunion of the First O. V. I. will be held at Lancaster some time during the month of August. In this connection it is suggested that the surviving soldiers and officers of other regiments recruited in this section of Ohio in whole or in part meet here with the First O. I. on the occasion, and unite in the festivities of a grand military Reunion. Many of those who served in these regiments would be glad to assist in organizing associations for the same or one general Association for the whole of them. Or regiments partially or wholly raised in the region alluded to, we recall to mind the 17th, 90th, 41st, 45th and 14th O. V. I. The object of such Associations, in cultivating and preserving the spirit which animated soldiers and officers in the field, and keeping alive the memory of their patriotic experiences by mingling together in annual festive reunions, is one which every good citizen should be glad to encourage.

**New Daily Bus Line.**—Michael Bope has commenced running a somewhat omnibus daily between Lancaster and Rushville at 7 A. M. and arrives at Rushville at 6 P. M. The proprietor proposes to extend the line to Somerford by July 1st. This is a great public convenience.
